Company Profile

sedus

About Us

B2 Solution is an innovative and modern company that provides professional consulting services for planning, architecture and design as well as a complete office solutions for furnishing of commercial interiors.

With more than 20 years of experience, over 3000 realized projects and a presence in more than 7 markets of the SEE, we transform business spaces into agile and inspiring work places in order to provide clients with a superior experience and employees well-being at the workplace.

We combine our expertise in architecture and interior design with the ability to realize and build collaborative, multi-functional, human-centered spaces.

This holistic approach to the built environment creates a seamless experience and exceptional results for our clients.

We continuously develop our portfolio of products and services with the intention of being the first choice for clients on every project from planning to implementation.

Company Statement.....

We are transforming the way people work, creating an atmosphere of comfort and well-being in the workplace that help people reach their full potential.

As regional official representative of leading industrie brands such as Sedus, Hoyer, Shaw Contract, Senator group and Stylooffice, most of our projects rely on the exceptional portfolio of those partners. In general our full product portfolio consist of more than 30 international brands.

Our company follows and anticipates the latest world market trends so that we can offer the most contemporary solutions by mixing functionality and form and thus maximizing the clients office space potential.

We'll mix and match any products from our brands to achieve the office that's right for your business. No matter the size of your budget or business, our experts in professional office design will do the best for you.

Our good, better and best product offering allows us to source the right furniture for the situation at the right price for your business' bottom line.

Our Goals

Mission

Our mission is to transform the offices into efficient working space. With professional solutions we help our clients to build strategically and strengthen soft values in the company.

Vision

We are striving to be recognized as the leading provider of highly functional solutions for the work space as well as strong but humble business partner who will professionally meet the needs even of the most demanding cases.

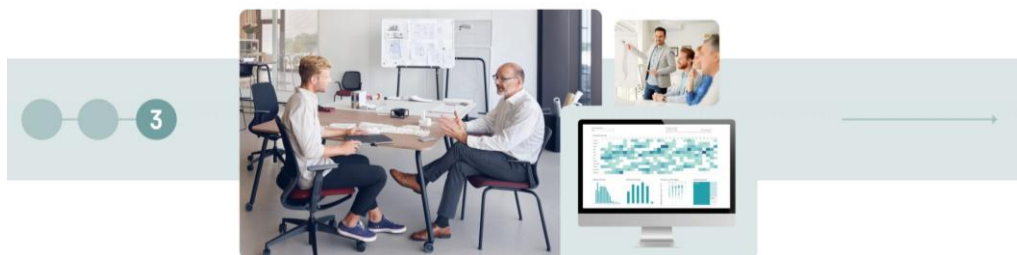

Values

Each member of our expert team is there to attentively listen, understand and recognize the needs of the client and take responsibility and initiatives to deliver the promised outcome.

Business Office Solution continuously find new ways and sources for personal and professional growth so that we are able to offer solutions with perfectionist details, to create high standards of quality and to overcome our client's expectations.

Social Responsibility

With diligently chosen products in our portfolio we actively participate in the environmental protection and reducing the use of carbon in nature. The products are recyclable and manufactured according to the highest standards for environmental protection.

Our Success Story.....

Approach

To ensure a long-term and sustainable solution, the success strategy for Workplace Consulting is divided into three main phases.

Knowledge-based

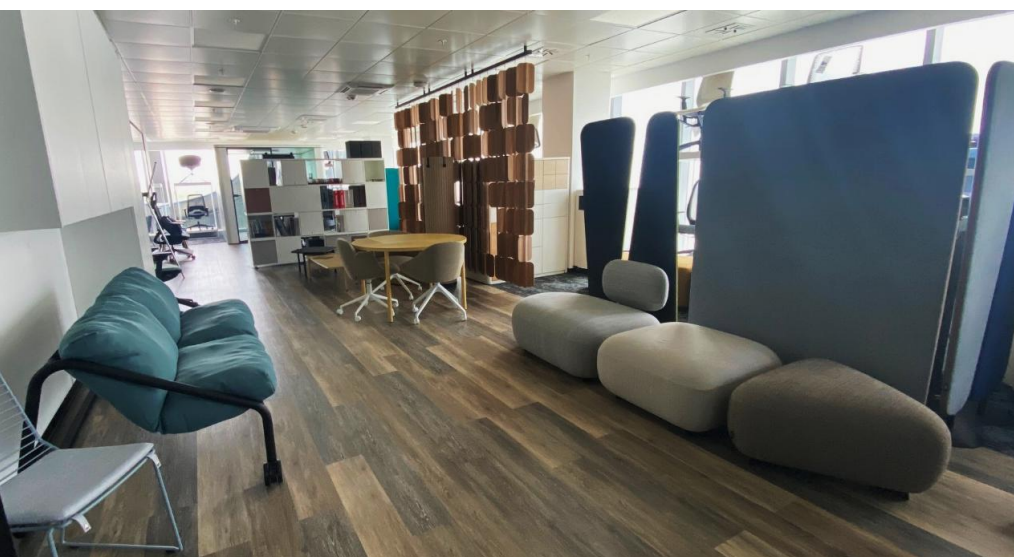

Business Office Solution monitors people's needs as well as changes and trends around the workspace. This know-how is implemented in products and solutions, and insights from current studies are incorporated into planning and consulting. This ensures long-term security for planned investments.

Tailored to your needs

The team of in-house specialists is complemented by a large network of external partners in order to find the optimal solution for all challenges and questions around the workspace. For a service that goes from strategy to implementation without any deviations.

SILVER DESIGNER
HADI TEHERANI

Design needs to make an emotional connection with the character of materials and their use; layer by layer must be revealed in order to understand its effect and discover a new context. It was our aim to make the technical complexity in Silver invisible and reach the poetic plateau of perfection in seating. A chair which is only suitable for use in an office is not enough. Aesthetics without ethics is deception.

The background of the slide is a lush tropical illustration. On the left, a toucan with a large orange beak and black and white feathers is perched on a large green leaf. On the right, a Bird of Paradise flower with vibrant orange and blue petals is shown. The background is filled with various green tropical leaves and plants. In the center, there is a white rectangular box containing the title and a row of office equipment icons.

THE DETOX OFFICE

How can we create a harmonious working environment?

The current world of work is rapidly evolving. Particularly in the age of hybrid working, it has become a reality that digital tools are being used in ever greater numbers. Whether for completing daily tasks, for video conferences or when on move – we use our smartphones, laptops, wearables etc almost all the time. However, this trend has its dark side:

Constant digital accessibility and use of devices can lead to so-called “digital fatigue”.
